To Whom It May Concern:

We would like to request a waiver for filing our USAC form 471 late. We had been working with a contractor to move us through this filing process, but they quit after making our initial filing of the 470 (which was submitted and is confirmed). Our staff have been learning this process, and were out for the summer holiday – that is the reason for the tardiness of our filing.

Thank you for considering our request. The financial assistance this provides is deeply valued by our organization.

Sincerely,

Natalie Lewis
Business Manager
